

California Energy Commission

DOCKETED

15-BSTD-01

TN # 75406

MAR 13 2015

March 13, 2015

To: The California Energy Commission
Attention: **Docket No. 15-BSTD-01**

AERC RECYCLING SOLUTIONS supports the proposed changes to Part 6, Section 1410, simplifying energy efficient retrofits for existing lighting systems. The proposed language is an improvement over the existing Code language and will reinvigorate the California market for energy efficient lighting retrofits.

As currently written, conformance to the Title 24 standards increases the costs of energy efficient projects to the point where the high costs are inhibiting the sale of such systems, and inhibiting the State of California from reaching its energy reduction goals.

The high costs also have a negative effect on property owners, suppliers of energy efficient lighting systems and other vendors involved in the energy efficient lighting industry.

Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Frank Alioto".

Frank Alioto
Vice-President, Western Region
AERC Recycling Solutions, Inc.
